

SLA **(Service Level Agreement)**

Upstream Link Capacity (Upload Speed) is 50 MBPS and shared between all members.

DNS Server's Cache Max TTL: 2 minutes
DNS Server's Ad-Blocking Feature: Active (Enabled)
Proxy Auto-Configuration: <https://aruspex.net/proxy.pac>

Please keep in mind that your subscription speed may show %10-%15 less in speedtests due to transmission overheads and retransmissions.

We may use DHCP (IP-over-Ethernet) instead of PPPoE to maximize your link utilization potential.

Download QoS (buffering queue) is **ON (enabled)**.

Download Queue Type is **Per Connection Queue (PCQ)**.

pcq-limit=125000KiB (1 GBPS)
